KIMBERLY TOH YING HUI

STAFF PRODUCT DESIGNER • UI UX DESIGNER

ABOUT ME

Hey! I'm Kimberly — a Staff Product Designer with 11 years of experience turning complex ideas into intuitive digital products. Since 2015, I've designed B2B and B2C experiences across apps, enterprise systems, e-commerce, websites, kiosks, and POS systems. My work spans ASUS, HKTVmall, Malaysia's public sector, hospitality groups, and leading payment providers.

「Shape complexity to clarity」

WORK EXPERIENCES

Staff Product Designer (2024/10 - 2026/3)

- **KWS | Keyword Search*** - Served as the sole product designer for an AI-powered keyword search system, translating complex search logic into scalable workflows. Built a modular component library in one week and validated key flows through A/B testing, usability testing, and user interviews. Phase 1 shipped 25% ahead of schedule, replacing a 3rd party service and saving USD50K+ annually.
- **HKTVmall WeChat Mini Program*** - Independently designed the China-market experience, adapting information hierarchy, checkout flows, UX copy, and interaction patterns based on local user behavior and WeChat conventions. The launch increased order conversion by 30% and acquired 25,000 registered users.
- **Hotel Booking** - Owned end-to-end UI/UX design for HKTVmall's new Hotel Booking feature, delivering Phase 1 within three months for the 2025 CASHBACK campaign while maintaining consistency with the core app.
- **HKTV Design System** - Drove a Design System refresh to address inconsistent and legacy UI across consumer-facing products, prioritizing key components and establishing a more scalable UI foundation.

WORK EXPERIENCES		
Senior Product Designer (2022/6 - 2024/10) 3PL Merchant Management System* - Independently designed a 0→1 merchant-facing 3PL system covering inbound, outbound, and inventory workflows. Translated complex multi-role permissions, batch operations, and warehouse processes into scalable task-based workflows, supporting HKTV's 4,000-sqm warehouse expansion in 2024. MMS Design System* - Initiated and drove the MMS Design System overhaul, establishing reusable components, usage rules, layout patterns, and shared standards between Design and Frontend. Achieved 90% cross-dashboard consistency and 98% component adoption, while reducing frontend UI rework by 75% and UI testing issues by 65%. Merchant Master - Drove the UX redesign of the merchant management platform, restructuring complex information architecture, workflows, and permission logic to simplify high-frequency operational tasks. Merchant's Profile - Unified fragmented merchant profiles across 3PL and ThePlace, simplifying cross-service workflows and complex permission hierarchies. Reduced average task completion time from 5 to 2 minutes, improving efficiency by 60%.		Shoalter Technology (HKTV) • Taiwan Taipei • 2022/6 - 2026/3
Senior UI Designer - Designed VeriView UI* for the Red Dot 2021 winning ExpertCenter E5 AiO 24, showcased at Computex 2021. - Created user-centric lighting animations and key functions for upcoming ROG LED products. - Designed the Android UI for the new shared camera feature in Link to MyAsus*. - Led design consistency across Commercial BUs, establishing Fluent Design and WCAG 2.0 compliant guidelines. - Collaborated with Singapore and Shanghai teams to research and ideate next-gen wearable products. - Executed UI design tasks while strictly adhering to established design patterns and guidelines.		ASUS • Taiwan Taipei • 2021/2 - 2021/10
Jr. Creative & Art Director (2018/6 - 2020/12) Focused on UI/UX and digital product design across payment, e-commerce, and self-service platforms, with concept direction across selected brand projects. - Designed Taobao Malaysia*'s web checkout flow and Public Bank* handheld POS payment experience with Revenue Harvest Group—both remain in use in Malaysia today. - Delivered digital and visual solutions for major clients including Sarawak Tourism Board and Kit Hin, spanning campaign experiences and export-market packaging. UIUX Designer (2015/6 - 2018/5) - Designed digital experiences across Hemisphere Group*'s portfolio of hotels and resorts, covering web, mobile, and direct-booking experiences. - Designed Insiders Club*, Hemisphere Group's hotel loyalty and rewards app, alongside web and app revamps across its hotel and resort portfolio. - Designed 22 websites across different industries within 30 days, creating a distinct visual direction tailored to each industry without reusing design concepts.
